

M.D. BATTLE RIVER Council Minutes

The Council of the Municipal District Battle River No. 423 met in the Municipal Office at Irma, Alberta at 10 a.m. on Thursday, July 10, with all members present.

The minutes of June 10th were read and on motion of Mr. Merrick were accepted as read.

Moved by Mr. Smallwood that the report of Mr. Merrick regarding the Temporary Road through Section 35-45-7-W4th be accepted. Cd.

Letter read from the Alberta Assessment Commission re appeals of James Donoghue and H. Farthing.

Moved by Mr. Challies that the Secretary change the figures in the assessment roll for 1931 in accordance with the letter from the Commission dated July 3rd regarding the S.W. of 34-5-8-W4th.

Moved by Mr. Smallwood that the Leave Investigate the Wild Land condition on the S. E. 35-46-8-W4th and report back at the next meeting, also the Secretary inform the National Trust that if the requirements for Exemption are carried out the council will cancel the wild land taxes against this property. Cd.

Moved by Mr. Burrell that Mr. Merrick investigate that Wild Land condition on the N.W. 27-45-7-W4th and report back at the next meeting. Carried.

Moved by Mr. Smallwood that the Secretary obtain 7 copies of the Municipal District Act with amendments for 1930. Cd.

Moved by Mr. Burton that Mr. Merrick and Mr. Vesey be appointed as a committee to investigate the road diversion through S.W. 10-45-7-W4th and N.W. 18-45-7-W4th in dealing with the question of compensation. Carried.

Moved by Mr. Challies that the Secretary write the G. T. P. Townsite and Development Co., re S. E. 34-45-9-W4th to the effect that the road on Plan No. 2860 M.D. is an encroachment on the land of the Municipality therefore offer them the amount of \$8.00 per acre for 4 acres taken for roadway. Cd.

Moved by Mr. Vesey that the Secretary write the Town of Hardisty re Mrs. Frank Anderson that this party is unknown to the Municipality and that this Council is investigating same and on receipt of this investigation you will be notified as to the outcome. Cd.

Moved by Mr. Smallwood that Mr. Burrell be appointed to investigate the residence of Mrs. Fran Anderson and report back at the next meeting. Cd.

Moved by Mr. Vesey that the 1930 Taxes against the S.W. 27-44-9-W4th and the S.W. 14-45-7-W4th be cancelled same being less on summer-fallow basis for 1930 by the S. S. B. Carried.

Moved by Mr. Smallwood that the Secretary write Mr. Deans of the S. B. regarding N.W. 15-44-9-W4th and N. 2-45-8-W4th that these lands were leased on the cash basis and that this Council cannot understand why the taxes were not retired for the years rented. Cd.

Moved by Mr. Challies that the arrears of taxes against the N.W. 28-46-9 be cancelled. Cd.

Moved by Mr. Vesey that the arrears of taxes against the N. E. and S. E. 12-46-7 be cancelled.

Moved by Mr. Smallwood that the letter from Mr. Purvis re Sec. 10-45-9 be tabled until next meeting. Cd.

Letters read from and to the Debt Adjustment Board re Sec. 7-46-8, N. W. 6-45-7 and W. Reber Seed Grain Indebtedness.

Weed Inspectors report read.

Moved by Mr. Vesey that report be accepted as read and placed on file. Carried.

Moved by Mr. Merrick that the Secretary be instructed to write Mr. Short of the Chipman Chemical Co., that the Council request him to come and demonstrate the Weed-Killer at some place and time suitable to the Weed Inspector. Cd.

Moved by Mr. Smallwood that Mr. Challies be a committee to go with Mr. Burton to inspect fence on the S. E. 32-45-8 alleged burnt by the Municipality, and if damages are there same be repaired at the Municipality's expense. Cd.

Moved by Mr. Smallwood that this Council donate to the Irma Agricultural Fair the amount of \$65.00 for the Wainwright Fair \$35.00 for 1930. Cd.

Moved by Mr. Merrick that the Cemetery Committee be allowed to spend not more than \$150.00 for Cemetery improvements for 1930. Cd.

Moved by Mr. Vesey that the Secretary write the Mid West Finance Corp., Edmonton that their fence on the West side of the West half 27-46-7 is on the road allowance, asking same to be removed at once as this is greatly impeding the work of road building on the said road. Cd.

Moved by Mr. Challies that the following Time Sheets be passed. Motion carried.

P. J. Harvey, Div. 3:—\$286.15,

\$121.00, \$124.70, \$235.90.

H. Kasien, Div. 3:—\$36.75.

A. L. Dietrich, Div. 6:—\$42.50,

\$106.00, \$223.68, \$72.25, \$323.88, \$54.43.

C. M. Steele, Div. 5:—\$107.50,

\$85.50, \$37.50, \$192.50, \$247.50.

W. Myers, Div. 4:—\$327.05, \$223.25

\$95.16.

Geo. Rubenock, Div. 2:—\$101.25,

\$101.50, \$120.00.

J. J. Ruste, Div. 1:—\$475.25.

Moved by Mr. Burrell that the following bills be passed and paid.

W. A. Burton—Coun. Mtgs.

and Mileage.....\$78.30

A. L. Dietrich—Blacksmith work L25

Moved by Mr. Smallwood that by

Order of the Municipal District of

Battle River No. 423 no gravel be

allowed to be taken out of gravel pit

on Road Allowance between Sec. 32-

29-45-W4th. Anybody doing con-

trary to this will be prosecuted by

this Council.

Moved by Mr. Smallwood that this

Council adjourn. Cd.

THE HOME LOVING WEEDS

I have seen farmers, standing in their own yards, up to their very knees in weeds, while they were complaining to an inspector about the weeds in a neighbor's crop. True, the neighbor had weeds in his wheat, but that wheat represented all that his neighbor had in the world. Yet our friend would have that crop cut on account of weeds and would not so much as turn a finger against the weeds in his own yard and other uncultivated areas on the farm. Is this wholehearted co-operation? Obviously not. Furthermore there are many reasons why the Pigweed, Lamb's quarters, Shepherd's purse, Stinkweed, etc., etc., in these uncultivated areas should not be destroyed? Of course not.

Fortunately this year has lent itself to the germination of every weed seed in such ground. Consider the results if these plants are destroyed before they set their seeds. I sincerely believe that many of our largest infestations began in these very places for there are many methods whereby they may spread.

Let us give a few hours to this work. It will mean a tidy place. It will be a reflection on character, co-operation and ability. Above all it will do a great deal towards weed control and bigger and better agriculture.

—P. D. Huxley, Field Supervisor, Wainwright.

Owing to the Chautauqua being here next week there will be no show in Kertess theatre at Irma, next Wednesday night.

NEWS AND VIEWS FROM AVONDALE

A social under the auspices of the Avondale U.F.W.A. was held Wednesday afternoon, July 23rd at Passendale. A full program of races for the children, a very interesting tennis tournament for the younger set, and a horse shoe tournament for the men, provided a good time for all. Prizes were given in each case. A successful guessing contest was conducted by Mrs. S. Thompson. The booth dispensed ice cream and cold drinks to a hot and thirsty crowd. Fruit, candies, sandwiches, cake and coffee were also sold.

Most credit and thanks is due to the committee composed of Mrs. B. Lentine, Mrs. C. Johnson, Mrs. J. Thompson, Mrs. Marshall and Mrs. Coulman, with Mrs. W. Johnson as convener, also to Mr. Jack Dalton for the use of the grounds.

A dance given by the tennis club was held at night in the school with Coulman's orchestra in attendance.

WHEN TO CUT

With the approach of harvest it becomes a nervous question when to start the binder in the wheat fields. Rust, hail, frost and shattering winds are hazards of varying degree in varying localities. A day's delay may mean heavy loss by one of these but on the other hand a day's haste may mean reduction in yield and lowering of grade through green kernels. Some of the early varieties like Bonanza, which is not yet fixed in type and therefore tends mature irregularly, have at times been reduced two or three grades on this score. One should consider varietal characteristics.

Loss caused by premature harvesting from fear of frost cannot be undone. If a threatening frost holds off, the wheat field must be harvested the ripper it gets the less the danger of loss provided frost does come. Still one must use judgment, and usually compromise. No rule can substitute for experience and a "weather eye."

Some growers pay over-much attention to the straw and not enough to the kernel. Straw may wither or turn green again according to moisture conditions. It is the kernel that counts.

In 1928 the Beaverlodge Station took samples every other day from a plot of Reward wheat, commencing August 2nd when the grain was slightly past the early-dough stage and continuing until August 24th. Samples of the respective varieties were officially graded at Calgary, where the first one was called a Line 3 Northern, the second and third 3 Northern, the fourth and fifth 2 Northern, all the others 1 Northern.

Other samples were sent to the Dominion Chemist, who found a more or less regular increase in weight of the grain from the first up to the sixth cutting but no general increase after that date. In plot work the crop would ordinarily have been harvested around the date of the seventh or eighth cutting.—W. D. Albright, Superintendent, Dominion Experimental Substation, Beaverlodge, Alta.

POLICE COURT

Tuesday Magistrate Millar held Court in Irma when the following gentlemen from the Bruce district were tried on the charge of disturbing the peace by discharging firearms in the dining room of the Irma hotel and on the street near the hotel, on July 15th. Carl Johnson, Robert Haken, D. Deschen, Chester Lund and J. W. Hail, pleaded guilty and were fined five dollars and costs each or ten days in jail. Three others, Bruce Davies, J. P. Hughes and Otto Lund also appeared but in their cases the charge was withdrawn. Sergeant Stewart of the Wainwright detachment A. P. P. prosecuted and A. Wilan, J.P. of Bruce acted as agent for the accused. In the report of this case in last week's issue it stated that six of these men had been arrested by the A.P.P. upon their arrival at Bruce. This was an error as Constable Sheets of Viking intercepted them when passing through Viking and took the names and turned them over to the A.P.P. who later served summons on them to appear in Irma.

NEW WEED FOUND

IN CASTOR DISTRICT John Murray, weed inspector for Progress Municipality No. 365 while making his rounds throughout the district, came across a patch of weeds with which he was not familiar and taking a sample of same sent it up to the department in order to discern what it was.

A few days later Mr. Murray received a letter from the department informing him that the weed was named "Hoyovera" and it has never been known in the Province of Alberta before. This weed is worse than Stink Weed and Sow Thistle combined. Weed Inspector Murray has found this weed on two Frenchmen's farms in the municipality and is taking every means to have it destroyed.—Castor Advance.

NOTICE

A number of motor cars from outside of the province have been passing through the district which haven't obtained a permit as required by law. People in the district who have friends visiting them from outside of the province and U. S. A. are requested to notify them to obtain a permit from the provincial police stationed at various points. This permit is issued free of charge and permits the non-resident to travel in Alberta for a period of six months before registration.

The Act provides that a permit must be obtained within 24 hours on arrival in the province. Failing to do so is punishable by a fine of \$25. Your valued co-operation in this case is requested to prevent unnecessary prosecution.

WINNERS FOR FREE SHOW

IN THE ELITE THEATRE Mr. O. Hudson and G. Rubnok are the winners of the free tickets to the theatre next week.

THANKS

The W. A. wish to tender a very hearty vote of thanks to all those who helped to make their social and dance a success, especially the musicians, the W. A. Band and the hostess of the lumber.—Irma W. A.

VIKING

Viking ball team is scheduled to play the Merna team at the Camrose fair on Friday evening of this week at 6 o'clock. If they win this game they play again on Saturday at 3 p.m. the winners of the Trochu-Camrose game. Viking is sending over a strong team and are considered having a good chance to win the tournament. Other teams entered in the tournament are Lethbridge, Botha, Hardisty, Ft. Saskatchewan, Wetaskiwin, Mirror, Trochu, Camrose and Merna.

Announcement has been received of the marriage of Miss Rieta Mae Earl, daughter of Mrs. Della Earl, formerly of Bruce, to Mr. Norman Merman Lange, of Tacoma, Washington, on Friday, July 11th. They will make their home in Tacoma.

At three o'clock on Wednesday afternoon, July 9th, a quiet wedding was solemnized at the home of Mr. and Mrs. M. J. Graham, 1231 16 Ave., west, Calgary, where Mrs. Graham's sister, Nellie K. Jones became the bride of John Arthur Paul of Viking, Alberta. Rev. James McNeil of Grace Presbyterian church officiating.

Th. Hilde who was unattended, wore a lovely gown of figured white silk chiffon over white satin and carried a large bouquet of cream carnations. After the ceremony a dainty luncheon was served.

The local Elks lodge have arranged to receive the election returns in their large hall on the evening of Monday, July 28th. Mr. Stock will install a high powered radio for receiving the returns, and the public is cordially invited to come and listen to the reports as received.

Work on the new building just north of the Hilliker Block is progressing nicely under the supervision of the contractor, J. J. Leeder.

A card received from Mr. and Mrs. Basil Hilliker and daughter, Miss Mary states that they are enjoying their trip to the coast very much.

W. J. Dillane brought in a fine sample of wheat growing on his farm to this office which is on display in the News window. It makes us all feel glad to see such luxuriant growth in the district, which, Mr. Dillane tells us, is an average sample of what is now growing in the Viking district. Here's hoping the price will be as good as the sample.

CHURCH NOTICES AND ACTIVITIES

ANGELICAN CHURCH Anglican Church Service on Sunday next, July 27th in Irma United church at 3 p.m. The Rev. Mr. Gower of Sedgewick, one of the newly ordained deacons will preach at this service. Mr. Gower is a very earnest Christian and will give a real message to all who turn out to hear him.

Next W. A. meeting will be at the home of Mrs. G. Sanders on Tuesday, August 5th.

ST THERESA CATHOLIC CHURCH IRMA, ALBERTA Service on the first Sunday of each month at 11 a.m.

IN THE DISTRICT COURT OF THE DISTRICT OF EDMONTON

IN THE MATTER OF THE ESTATE OF ORVILLE LEE CHASE, late of the Village of Irma, in the Province of Alberta Farmer, Deceased.

Notice is hereby given that all persons having claims upon the estate of the above named, Orville Lee Chase, who died on the 26th day of July, 1929, are required to file with Messrs. Newell, Lindsay, Emery & Ford by the 2nd day of September, 1930, a full statement duly verified of their claims and any securities held by them, and that after that date the Administratrix will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 11th day of July, 1930. NEWELL, LINDSAY, EMERY & FORD, Solicitors for Mildred Josephine Chase, the Administratrix, Canada Permanent Building, McDougall Avenue, Edmonton, Alberta.

July 19-25-A1.

NOTICE

By Order of the Municipal District of Battle River No. 423.

No gravel is allowed to be taken out of Gravel Pit on the Road allowance between Section 23 and 24-45-9-W4th. Anybody found guilty in contrary to this will be prosecuted, by this Council.

IN MEMORIAM

In loving memory of our dear little son William who passed away July 23rd, 1928. No stain was on his little heart, Sin had not entered there; And innocence slept sweetly on That pale white brow so fair. He was too pure for this cold earth Too beautiful to stay; And so God's holy angel bore Our darling one away. Ever remembered by his parents Mr. and Mrs. W. Masson.

TENDERS WANTED

Tenders wanted for painting the Schoolhouse and Barn of Avonlawn S. D. No. 3975 for further particulars, communicate with J. N. Carrington, Sec.-Treas.

TREE PLANTING CAR COMING

The Tree Planting Car of the Canadian Forestry association will arrive in Irma on Wednesday, July 30th. Equipped to show both slides and moving pictures of all phases of tree planting, also some reels of the beauty spots of Canada. The tour is entirely educational and free.

It pays to read advertising messages in this paper, week by week, they contain store news, and information of much value—offerings of bargain buys which mean money saved to the careful shopper! Incidentally, it is mighty poor economy to be without the local paper—its advertising news alone will, in the course of a year, more than repay in dollars and cents the price of the annual subscription.

"The radio has been a big help to me in my singing lessons," said a lady to a friend here. "I suppose it helps you get ideas from the songs you hear?" her friend asked. "No, not exactly that, but when the neighbors get fussy over the noise we lay it on the radio," she replied.

Your Vacation Pleasure

—will be enhanced if you start with a complete outfit prepared by us. It is not really necessary to have everything NEW for your trip—but have your present garments RENEWED by our Cleaning or Dyeing and your enjoyment will be as great at much less expense.

Marketing and Distribution

The problem with which industry is confronted today is marketing, declares Donald M. Marvin, economist, in the monthly letter issued by the Royal Bank of Canada. To quote Mr. Marvin:

"Early economic thought had its birth in a philosophy of trade, but this line of thought was rapidly displaced by theories concerning production. In theory, trading operations became a mere adjunct to productive processes, and, except as regards foreign commerce, occupies a very subordinate place in economic literature. The engineering genius of the world has been focussed on methods of manufacture. The last half century witnessed the growth of large scale production and remarkable improvements in productive efficiency, but relatively speaking, distribution has escaped attention. Today this is changing; the problem with which industry is confronted is that of marketing."

While increased attention is being given to the principles and practices of marketing, data relating to this field are far less comprehensive than for other branches of human activity. Population, production, prices, export and import, and many other kinds of statistics are available in abundance and in a high degree of excellence. Official statistics relating to agriculture, mining and manufacturing have been collected for many years. The number of persons engaged in these activities is known, together with varied information concerning the quantity and quality of their products. There are no comprehensive statistics of distribution and it is in this field that the need for further information is undoubtedly most acute.

The relative merits of the chain store, department store, mail order house and the local independent dealer have long been the subject of controversy and speculation. The fear that the independent merchant is being crushed to the wall by an over-powering competition has frequently been expressed. What the actual situation may be, not only as regards retail trade as a whole but as regards its different branches, can only be discovered when adequate information concerning distribution is available.

Urgent necessity has moved many private concerns to seek information in this field, but private enterprise has gone about as far as it can go in providing this information. Unfortunately, the results have been incomplete and only serve to emphasize the necessity of a comprehensive statistical study of the subject. The first requisite for such an analysis of distribution is a census of all manufacturing, wholesale and retail establishments which are engaged in distribution. Such a survey will be undertaken by the Dominion Bureau of Statistics in connection with the regular decennial census in 1931. The schedules will contain questions relating to the kind of business, number of employees, salaries and wages paid, inventories, expense of doing business and capital invested.

This census will be of great benefit to all those who wish to make an intelligent study of the problem relating to marketing in Canada. It will supply the basic statistical material required, and provide a comprehensive picture of the various outlets for an extensive list of commodities and groups of commodities. The relative proportion of cash and credit sales will be given. Presentation of the data in the form of averages will provide a basis with which individual concerns may judge their own results. A picture of consumer demand in each section of the country will be presented, together with information showing the various types of outlets through which they are now reached. Such data will be invaluable in the preparation of advertising and sales campaigns. While the advantages of this type of information to manufacturers and distributors is obvious, the fact that the consumer will benefit through the economies which should result, should not be overlooked.

Studies relative to the cost of living will be assisted by data showing the percentages of consumers' purchases of food, clothing, fuel, and other groups of products. Special methods of distribution adapted to certain districts will be shown, and additional light will be thrown on the movement of commodities between the various provinces of Canada. The compilation of these statistics and others of a like character should produce material of substantial benefit to industry and trade.

The success of this survey will depend very largely on the wholehearted co-operation of those who supply the individual returns. The need for the information has become particularly urgent as advances in methods of production have pressed the problems of distribution more and more upon the attention of business leaders. With the added information made available, a real analysis of the problems of distribution will be possible and more effective measures devised for their solution.

A Vagabond In Canada

Daughter Of British Minister Of Education Enjoys Trip Across Dominions

It's a good idea to be a vagabond for a while in the opinion of Katharine Trevelyan, daughter of Sir Charles Trevelyan, Minister of Education in Great Britain, who left recently for Montreal and her home in Campo, Northumberland.

Miss Trevelyan has spent the past two and a half months putting her theory in practice. She has peeled potatoes in cargo boats on the Great Lakes, walked hundreds of miles across the prairies, ventured into the Okanagan and Cariboo districts of British Columbia, and as a final achievement in her adventurous journey across the continent, made a season's first ascent of Mount Edith Cavell, 11,033 feet high.

But out of all her experiences what impresses her the most is that she still has sufficient money left for her next term at Oxford.

"The thing about being on one's own," she said just before leaving Jasper Park Lodge for the east, "is that it gives a feeling of independence. It also gives an opportunity for digesting and thinking over the various things you have experienced during the last few years, as well as taking stock of what you see in your journey."

"That is why I think," continued the young English girl on her way back to England to settle down to a period of comparative tranquility, "everyone should get away from his usual routine for a time, at least every four years. In your own comfort at home you don't get a chance to recognize just what has been happening to you."

Famous German General Dead

General Friedrich von Bernhardt Had Field Command During World War

General Friedrich von Bernhardt, who led the Imperial army both in victory and defeat, died in Berlin recently at the age of 81.

In the war of 1870, General von Bernhardt was the first German officer to enter Paris after its fall. At the outbreak of the great war, he was commander of the home units of the fifth army corps, but at his own request was assigned to a field command and left for the front in December, 1915.

He was a very capable and able use of his own initiative, and before the end of the war was recognized as one of the premier strategists of the Imperial army.

Saskatchewan Power

Seven Hundred and Fifty-Eight Miles Of High Tension Lines To Be Built This Year

The Saskatchewan Power Commission is calling for tenders for the building of 758 miles of high tension lines to make available electric energy for the use of some 58 towns and villages throughout the province, so that the lines can be completed and in operation by the end of October or beginning of November. The power will be supplied by plants located at Saskatoon, Prince Albert and Moose Jaw.

Minard's Liniment checks Colds at once.

Adding Insult To Injury.

The automobile tale Gaston Herot, of Paris, has to tell is a strange one. Gaston was knocked down by a taxicab, and when he got out of the hospital he was fined for "letting himself be knocked down." The driver proved he had blown his horn, so Gaston had to pay. It's a new law there.

Owl Cannot Move Eyes

An owl cannot move its eyes. The eyes of this bird are fixed immovably in their sockets by strong cartilaginous cases. To compensate for the inability to move the eyes the bird's neck is so jointed that it can turn its head almost in a complete circle.

PAIN

No matter how severe, you can always have immediate relief:

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

ASPIRIN

TRADE MARK REG.

Germany's foreign trade continues near the record mark.

Wheat Acreage Less

Decrease In Acreage As Compared With Last Year, Is About 3 Per Cent.

Total estimated areas sown to wheat in Canada for the 1930 season is 24,983,300 acres, as compared with 25,253,000 acres usually reported for 1929, according to the weekly crop report recently issued by the Dominion Bureau of Statistics. This is a decrease of 271,702 acres, or about 3 per cent.

The area of fall wheat to be harvested is estimated at 636,000 acres as compared with 634,284 acres in 1929, a decrease of 1,716 acres, or 24 per cent.

Spring wheat occupies 23,947,000 acres, as against 24,420,718 acres in 1929, a decrease of 473,718 acres, or about 2 per cent.

Cereal crops show increases, according to the reports: oats from 12,478,477 acres to 12,815,000 acres; barley, from 5,925,542 acres to 6,050,000 acres; rye from 991,944 acres to 1,092,200 acres. Fall rye occupies 763,400 acres as compared with 664,193 acres in 1929 and, spring rye 328,800 acres as against 327,751 acres last year.

Flaxseed shows an area of 451,500 acres as compared with 382,359 acres in 1929. The area planted to potatoes is estimated at 557,000 acres, as compared with 543,727 acres, an increase of 2 per cent.

Icebound Ships Are Freed

Held In Ice Since Last September Are Finally Liberated

The icy embrace of the Arctic Ocean has at last released its grip upon the American fur trading ship "Nanuk" and the Soviet steamer "Stavropol" held icebound in Siberia since last September.

The "Nanuk" was freed recently when the packed ice moved off-shore while a little later the ice broke up in the bay, freeing the "Stavropol."

It was to the "Nanuk" that Carl Ben Elsdon and Earl Borland were flying from Teller, Alaska, last November when their plane crashed near North Cape, killing both of them.

Recipes For This Week

(By Betty Barclay)

BOSTON SANDWICHES

Either left-over or canned baked beans can be used for a delicious filling for a hearty sandwich. Whole wheat and Boston brown bread are equally desirable.

Press 1 cup baked beans through a coarse sieve and add 1 tablespoon tomato catchup, $\frac{1}{2}$ teaspoon onion juice, $\frac{1}{2}$ teaspoon mixed mustard and $\frac{1}{2}$ teaspoon sugar. Spread on buttered slices of bread and serve with crisp pickle.

DATIE PICNIC SANDWICH

The picnic lunch needs plenty of fruits. A few date sandwiches help to bolster this up, and furnish very delicious tidbits as well. Run half a cup of dates and half a cup of walnut meats through the food grinder, using the coarse plate. Mix with one Philadelphia cream cheese and $\frac{1}{2}$ teaspoon sugar. Spread on buttered slices of whole wheat bread.

PIAZZA DELIGHT

$\frac{1}{2}$ cup sugar.
2 cups of water.
2 cups orange juice.
3 tablespoons lemon juice.
Grated rind 1 orange.
Boil sugar, water and orange rind together for 5 minutes. Chill, add fruit juice and serve.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and normal happiness.

One Thing At A Time

Declared to have worked wonders with many who sought more slender figures, a new plan of a famous doctor in Berlin, Germany, is attracting patients from all parts of Europe. At the doctor's home no one ever is allowed to go hungry. He or she may eat cereals, fruit, vegetables, meat and poultry according to appetite. But what is strictly forbidden is the mixture of foods. It must be one thing at a time. Even butter must go with bread.

Canada's Forests

The forests of Canada are, in the aggregate, the second most important natural resource, being exceeded in actual value of products by agriculture alone.

Minard's Liniment for All Strains.

Don't Gamble With Health

We all know health demands absolute inner cleanliness. But what we often don't realize is the risk we take when we use harsh, griping purgatives that create a strained, unnatural condition.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

ENO'S

"FRUIT SALT"

British Naval Estimates

Additional Estimates Call For Expenditure Of About \$1,000,000

The British admiralty has published additional estimates for naval construction for the current financial year, in which £208,200 (about \$1,000,000), is asked. The amount will be used for construction, allowed Great Britain under the London treaty. Of the supplementary estimate, £183,600 is required to meet costs to submarines this fiscal year on three submarines of the 1929 program, construction of which had been deferred pending conclusion of the naval treaty.

The balance of £24,000 will be devoted to the new construction program for 1930.

Grain Via New York

Canadian Exports Constituted 20 Per Cent. Of Tonnage Last Year

Canadian grain constitutes 20 per cent. of the export tonnage from the port of New York, according to an estimate outlined in the annual report for 1929, of the Port of New York authority. It was also pointed out that this Canadian grain earned a gross annual revenue of \$9,000,000 for United States railroads and barge canal operators serving the North Atlantic ports, and furnished from 23 to 75 per cent. of the east-bound cargoes of steamships operating from the port of New York.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this. It is the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Will Build New Dock

A \$1,000 dock is to be built at Sturgeon Landing, Sask. It was learned following a trip made to the outpost by Engineer Davies, representing the Federal Government. Sturgeon Landing is about 135 miles northwest of The Pas, on the Saskatchewan River water route. Much of the freight taken into the north has gone in through this point.

His Sight Restored

Blinded In Right Eye, Sight Is Regained In Peculiar Manner

Totally blind in his right eye for 33 years, Stephen McCormack, of Sydney, Australia, has had his eyesight restored by an accidental finger poke in the eye.

When a piece of stone thrown up by a horse's hoof robbed him of the sight of his right eye, specialists were baffled.

Thirty-three years later McCormack was exercising with a medicine ball when a companion accidentally poked a finger in his blind eye. He was seized with excruciating pains in the head and suddenly his eyesight returned.

German Aircraft For Canada

Representative Of The Junkers Aircraft Corporation Visits Dominion

German aircraft builders are well aware of the potential market for machines in Canada, and the Junkers Aircraft Corporation of Dessau, even anticipates assembling certain of its various types in the Dominion. One of the company's representatives is now in Montreal to investigate the situation, and will use one of the Junkers monoplanes for demonstration purposes. It is expected that he will remain several months to discuss conditions and prospects with leaders in aviation.

Colorado man has a chicken with only one eye, so in that part of the world there are a few warnings that stand a pedestrian's chance of escaping.

Mr. Ford is going to save an old-time gentleman for his museum he'll have to be quick about it.

LEARN WATCHMAKING

Light Interesting Work. Good Watchmakers (either sex) can earn good money. For information write the CENTRAL TECHNICAL SCHOOL, Toronto.

Canadian Destroyer Launched

Destroyer "Saguenay" Launched At Southampton, England

The new Canadian destroyer "Saguenay" was launched at Southampton, England, from the Thorncroft yards recently, in the presence of a large and interested crowd. Madame Desbarats, wife of G. J. Desbarats, Canadian Deputy Minister of National Defence, performed the christening ceremony.

A sister vessel, the "Skeena," is to be launched in September. The two destroyers are of special design for use in Canadian waters. They are of 1,330 tons displacement, with a length of 310 feet and a speed of 35 knots.

The "Skeena" and "Saguenay" will replace two destroyers now on loan to Canada for patrol purposes, etc., from the royal navy.

Where Wives Are Cheap

In the Belgian Congo a pigmy wife of the better grade can be purchased for a good sharp knife, while others not so comely may be had for a pinch or so of salt. So declared Mrs. Della J. Akeley, first wife of the late Carl Akeley, on returning to New York from a 10 months' stay in the African jungle.

NO MORE STOMACH TROUBLE

No more stomach trouble. Can eat anything. Write Mrs. R. White. Thousands say indigestion, heartburn, gas, weak bowels, "fruit-draws", constipation, sick headaches and nervousness, heart trouble, and all ailments, Rheumatism, flatulency, complete cure quick. Get "Fruit-draws" from drugist today.

W. N. U. 1347

Millers of Great Britain and On The Continent Speak Highly of Garnet Wheat's Milling Value

Ottawa, Ont.—Considerable enthusiasm was expressed among millers of Great Britain and on the continent who investigated Garnet wheat as to its milling qualities. A report by L. H. Newman, Dominion cerealist, on the result of the investigations of a specially bagged shipment of this blend of wheat overseas, has been made public. For a time at least Garnet should be shipped as a separate variety, instead of mixed with Manitobas. This would give the millers an opportunity of knowing the variety they were dealing with and they could treat it to the best advantage.

Garnet wheat, an early maturing variety of hard red spring wheat, was first available to Canadian farmers for testing in field areas in the spring of 1926. Since then it has become increasingly popular with growers of wheat in the prairies, particularly in the northern districts. The question arose should Garnet be allowed to go into the highest grade of Manitoba Northern wheat without restriction of any kind or would it be preferable to set up at least one or two separate grades for the accommodation of the variety or to continue to handle it as at present.

The Federal Department of Agriculture decided to submit Garnet to test by millers in the United Kingdom, and in different European countries. A year ago 6,700 bushels were shipped overseas to men expert in milling to obtain their opinion as to its suitability. These men were asked a series of questions, and Mr. Newman's report includes the replies they made.

In his summary of the results obtained from this test Mr. Newman states that while practically all investigators have expressed the opinion that Garnet wheat or mixtures containing the same, might have to be "conditioned" a little differently than would be the present Manitobas, yet this fact did not seem to be of serious moment.

On the other hand, a number of investigators spoke with considerable enthusiasm of the good milling qualities of Garnet wheat when milled alone or in mixtures. It should be kept in mind, however, the summary explained, that in both Great Britain and on the continent it is usually milled at a higher percentage moisture content than is the case in Canada, which fact may account for the relatively good milling behaviour of this variety in the Old Country tests.

The summary continues: "The general attitude of practically all of those who investigated this wheat in England and on the Continent during the past season, seems to have been pretty well expressed in the words of Dr. Kent Jones, whose concluding statement is repeated as follows: "Garnet wheat, both in milling and in baking, has certain pronounced characteristics: Millers will always be faced with the fact that Garnet will give stability to their blends but not quite the spring and elasticity which is normally given by Manitobas."

"Since English and European millers are par excellence, blenders of wheat, they require to know the exact properties of the wheats they use. I therefore recommend that Garnet wheat should be placed upon the market as a separate variety, and although in the first instance, its price might be slightly lower than the corresponding Manitoba, I am inclined to think the market would rapidly appreciate its merits and there may be times when the Garnet may command the higher price."

"Another investigator is even more emphatic when he says: "There is no doubt in my mind that we can make very good use of this wheat in London, providing we

are able to buy it separately as Garnet wheat. In fact, it has a distinct value of its own, but if mixed with Manitobas, it will not only lose its own distinctive value but will tend to greatly lower the distinctive value of the Manitobas wheats. If your farmers can send forward Garnet wheat of as good a quality as this particular shipment, I do not think they need fear having to sell it at a great discount as compared with Manitobas."

"The question as to how Garnet compares with ordinary Manitobas for blending with the Canadian wheat, is one which obviously could not be answered very definitely in an investigation which had to restrict itself to the crop of a single year. There was some evidence, however, to show that there might be times when by reason of some peculiarity in the season prevailing in certain wheat-producing countries, wheat of the characteristics of Garnet might actually be of greater value for blending purposes than would our present Manitobas. Similarly, there might be times when the latter wheat might be worth a little more for blending purposes. It was also shown that a mixture of Garnet and of Manitobas in fairly definite proportions might, under certain circumstances, produce better results than if either of these two wheats were used alone in the blend."

"While the questions asked specifically of the bakers have been fairly well answered already, yet there are a number of points raised which are worthy of special consideration. Thus, the questions of absorption and bread yield, are points of importance. The results of practically all of those participating in the present investigation, are closely in agreement with the following conclusions: Generally speaking, the flour of Marquis absorbs a little more water than does that of Garnet, and consequently is inclined to produce a little higher bread yield. Since ordinary Manitobas at the present time consist largely of Marquis, it may be safe to assume that the tendency is for the former to absorb a little more water than is absorbed by Garnet."

Not a Day Job

Evening Best Time To Dust Wheat For Rust Control

The Dominion Botanist, H. T. Gussow, in his report on the dusting of wheat for rust control, observes that experimental work has proven the best period for dusting to be from 6 to 9 o'clock in the evening. It has been found that prevailing air conditions are extremely satisfactory for efficient manipulation of the dusting aeroplane during this part of the day, and that a uniform dust coverage over a swath-width of 90 to 100 feet is possible. Early morning dusting operations on the prairies prove unsatisfactory and only at extremely rare intervals can satisfactory aeroplane dusting be carried out during the daytime.

Winter Feeding Of Cattle

Ranchers May Distribute Range Cattle Among Saskatchewan Farmers

Intimation of an extensive system whereby ranchers could distribute in smaller groups large herds of range cattle for winter feeding among the farmers of the province, was given at the opening session of the 18th annual convention of the Saskatchewan Stock Growers' Association. Discussion of the system arose out of a resolution adopted at the 1929 convention, which was tried in practice during the winter in several districts of Western Canada.

Demand For Muskrat Pelts

The growing popularity for muskrat coats in Scotland is responsible for an increasing demand for muskrat pelts. One of the largest wholesale manufacturing furriers in Glasgow has announced that it will require about 20,000 muskrat skins this year, and is seeking quotations for best quality eastern Canada rats of large size and good color.

Exports To France

Canadian exports to France, in 1929, were increased to a value of \$48,540,000 francs, or more than \$33,500,000 over the 1928 figures. Canadian exports to France amounted in weight to 357,141 tons in 1928, and 391,385 tons in 1929.

Little Ethel: "Mother, are you the nearest relative I've got?" Mother: "Yes, dear, and your father is the closest."

Checking Up On Resources

Gathering Data On Mineral Deposits and Water Power Possibilities

For the purpose of mapping, investigating mineral deposits, and water-powers and getting further accurate data concerning the wide variety of natural resources throughout the Dominion, the Canadian Government Geological Survey has 35 parties at work this year in different parts of the country.

Thirteen parties will make topographical surveys. Three will investigate geophysical methods of prospecting and two will collect specimens for the national museum. The other 40 parties will be engaged in a variety of investigations. The most northerly party will work near Chesterfield Inlet on Hudson Bay, in latitude 63 degrees; the most westerly one will be in the Yukon Territory, and the most easterly at Sydney, Nova Scotia. Forty-six of the parties will be in charge of permanently employed officers of the Geological Survey. The other parties will be in charge of university teachers or specialists from other institutions, who are employed during the field season. With the parties will be 115 university students in geology and engineering.

Fraser River Lumber Exports

Lumber exports from the Fraser River during the first four months of the year amount to 62 million feet. Approximately 4,000 tons of box shoo, veneer and lath, and 15 million shingles, were exported during the same period.

Highly skilled laborers are being imported into Venezuela.

Nearly 1,000 new chain stores were opened in Canada last year.

Among the World's Best

Canadian Entries In British National Laying Contest Make Good Records

A report recently received by F. C. Elford, Dominion Poultry Husbandman, shows that Canadian entries in the Overseas Section of the British National Laying Contest now being conducted in the Old Country, are among the leaders, holding third and fourth places respectively. A pen of White Leghorns entered by C. D. Calder, of Cowanville, P.Q., holds third place with a total score of 825 points, while a pen of the same breed entered by J. C. Quandy, Port Dover, Ont., holds fourth place with a score of 782 points. The leading pen in the international contest is an entry of Rhode Island Reds from France, total score 926 points. Second place is held by an entry of the same breed from Ireland with a total of 924 points. With some weeks yet to go the position of the Canadian entries may be materially improved if they keep up their present excellent performance.

Regina's Population Increasing

Present Population Is Now Estimated To Exceed 60,000

By the time of the staging of the World's Grain Exhibition in Regina, in 1932 (from July 25th to August 6th), it is likely that the city's permanent population will be in the region of 75,000 or 80,000. The 1929 Henderson's Directory and the Post Office Department place the present population at between 52,000 and 65,000, while the Board of Trade makes a conservative estimate of 63,000. The transient population of Saskatchewan's capital will rise considerably with the approach of the big fair.

ALPINE MEMBERS CAMP ON MOST BEAUTIFUL LAKE IN ROCKIES

Where year by year increasing thousands are turning to it for rest and recreation, finding among its glorious ranges and by its exquisite lakes continual sources of joy and health, Jasper National Park will be visited this summer by Alpinists to the 25th Annual Camp of Alpine Club of Canada, in the Malaga region, July 28th to August 16th. Mountain climbers from all over Canada and the United States, many of whom will have their wives or husbands will be in attendance, as will also a number of distinguished visitors attending the British Medical Association Convention in Winnipeg, be on hand to make the "out camp-fires" increase in interest.

To reach the main camp, the party will be conveyed from Jasper town to Jasper Park Lodge by motor car to Medicine Lake, about 20 miles; to the upper end of the lake via motor boat, and from there, to Maligne Lake a distance of about 9 miles, on foot, although a limited number of riding ponies will be available between the two lakes. The main camp will be pitched close to the mouth of Coronet Creek at the south end of Maligne Lake; directly behind the camp, tower the buttressed walls of Mount Warren (10,800 feet). The first ascent of this peak was made by Max M. Strickland and William H. Hensworth in 1928, who, from their camp at the mouth of Warren Creek, at the southeast corner of the lake, also made the ascent of the Thumb (9,200 feet); also of Mt. Florence (9,700 feet). These ascents can be made from the main camp, but with the assistance of a motor boat the

route can be considerably shortened. The double ascent of Mount Mary Vaux (10,250 feet), and its outlier, Mt. Llysfran (9,000 feet), will be a popular expedition for beginners. To the northwest, another great group of mountains will claim the attention of the mountaineers, Mt. Lash and Mt. Sampson, impressive rock masses. Directly opposite them rise Mts. Charlton and Unwin, topping all other peaks in the region and heavily draped in snow and ice. Directly south of these two massive rises Amer's Mt. Julian, climbed by him and Edouard Feuz last August for the first time.

In order to climb mountains too distant to be reached from the Main Camp, an auxiliary camp will be placed at the head of Coronet Creek some six miles away, and from here ascents will be made to Mt. Brazeau (11,250 feet), Mt. Valad, Mt. Henry MacLeod (10,600 feet), Coronet Peak (10,000 feet), and other unnamed peaks. There are many minor expeditions for those whose tastes lean to less strenuous activities. Trips to places bearing such fascinating names as Sunshine Falls, Pixie Valley and the Fall of the Veil of Tears are being considered.

The new Memorial Hut at Penstock Creek, in Tonquin Valley, about 10 miles from Sunshine Falls, will be ready for members shortly before camp. It is about twenty-five miles from Jasper thirteen of which can be travelled by motor on the Edith Cavell Highway and the balance by trail. It is an excellent climbing centre and many members will visit this wonderful region.

Growth of Western Provinces Within Recent Years Has Been One of Great Modern Romances

On July 15th the Province of Manitoba celebrated its diamond jubilee as a province of Canada. Manitoba was created a province in 1870, and began its career as such on July 15th of that year. The name Manitoba is a contraction of the Cree word Manitowish and it is said to mean "The God That Speaks."

The first white men to set foot in what is now the province of Manitoba were Pierre Gaultier de Varennes La Verendrye and his sons, about 1732. In the early part of the nineteenth century Lord Selkirk began to establish a settlement of Scottish families on the Red River, and this became the foundation stock of the oldest white settlement in Western Canada.

In 1870 the province of Manitoba consisted of only a comparatively small section of land on both sides of the Red River. It has since then been twice enlarged and now has an area of 251,832 square miles. The population of the province 60 years ago was about 25,000; now it is over 638,000. The total population of Western Canada in 1870 was about 109,000. In 1930 it is about 2,550,000. Winnipeg, sixty years ago, was a settlement of a mere handful of people; in fact the official census of 1871 gave it a population of 241. Now it is one of the most modern cities of the world with a population of over 200,000.

The growth of Manitoba and of the other provinces of Western Canada in comparatively recent years has been one of the great romances of modern times. Sixty years ago Western Canada was practically virgin territory. Railways did not link Manitoba with the Eastern provinces until the early eighties. Hardy pioneers had begun to flock into the province in advance of the railways, driving their yokes of oxen with their

families, and all their worldly possessions loaded on a "prairie schooner" or Red River cart. Many of these pioneers received free land from the Canadian Government. Scarcely any of the rich fertile soil had then been brought under cultivation. The farm machinery of the time was crude, there were no competent advisers. Government experimental farms did not come until several years later. Yet those hardy pioneers stuck it out, and numbers of them are enjoying their declining days in the communities they wrested from the wilderness, prosperous, contented, with their children's families gathered about them. They have seen civilization step into the west and the wilderness swept out. Today are thriving cities and towns where bleaching buffalo bones marked the outskirts of 60 years ago. Today are mighty freight trains, each with its thousand-ton cargo of wheat or merchandise, roaring down the roads where the old carts creaked. Today are schools within walking distance of every farm house, churches within driving distance of every home. Today are telephones, radios and every modern convenience linking communities over vast distances by the common bond of the spoken word.

Canada now ranks as the largest wheat-exporting country in the world, and the second largest producer of wheat, over ninety per cent of which is grown in the three Prairie Provinces. The wilderness of a few decades ago is now one of the world's greatest granaries and also a substantial contributor of other grains, livestock, dairy products, manufactured goods, etc.

If La Verendrye, Selkirk, and others of the early pioneers had been present at the Diamond Jubilee celebration of the creation of the province of Manitoba, they would undoubtedly have been overwhelmed with the metamorphosis that has taken place not only in the area of their original settlements, but throughout the whole Dominion. Yet notwithstanding the marvellous development that has taken place in Western Canada in the past 60 years only about one-fifth of the land suitable for farming is under crop and millions of acres still await the plough. The opportunities of Western Canada are today even better than when the hardy explorer, La Verendrye, arrived in Manitoba from his native town of Three Rivers, Quebec, about two hundred years ago, and Lord Selkirk established the settlement of his courageous kinsmen on the Red River about 100 years ago.

To Benefit Agriculture

Idea Behind World's Grain Exhibition Is Outlined

"It is the wish of the World's Grain Exhibition and Conference executive to make the conference representative of the world's best thought along practical and scientific lines," says the official booklet covering the fair at Regina from July 25 to August 6, 1932, "and to secure outstanding contributions from all countries whose experts are recognized as leaders in their particular lines. It amounts really to the organizing of a conference that will constitute a clearing house for world thought and knowledge on every important branch of field crop production and marketing."

Paid Old Debt

A 46-year-old eight dollar debt, which was incurred at the funeral of Jane Gibson, in Vincennes, Ind., negro woman, was paid a few days ago when a son called at a local undertaking establishment and settled the account. The proprietors had forgotten it.

It is estimated that the dirt hanging in the air over Manhattan Island weighs more than 125 tons.

(By Annabelle Worthington)

A little Dutch apron frock for small folk of 2, 4 and 6 years. It's delightfully comfy and smart. It can be worn as apron to keep little daughter's frock spot and stain. It is unsurpassed for the warm days of summer, worn as a frock. The square neck is cut quite low. It's sleeveless too. It buttons down the back with the bodice tied with quaint sash.

The miniature diagram shows how utterly simple it is to make and launder. Style No. 3358 is suitable for pique, broadcloth, dimity, organdie, linen, printed lawn, Peter Pan prints, dotted swiss and batiste. The neckline, armholes and pockets are trimmed with braid. As a smart variation, they may be piped in contrasting colour. Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

"Pollyanna" to Be Presented at Canadian Chautauqua

SCENE FROM "POLLYANNA"

"Pollyanna," the outstanding comedy-drama to be presented at the coming Canadian Chautauqua here by the Martin Erwin Players of Canada, is based on Eleanor Porter's famous novel of the same name. Pollyanna, with her sunny optimism and her philosophy of gladness, has been transferred to the stage by Catherine Chisholm Cushing in the play which will be seen here with extraordinary fidelity to the character in Miss Porter's novel.

Here is a great play, filled with laughter, pathos, gripping drama and romance, and leaving its audience in a glow of good humor.

Irma Chautauqua, July 29-30-31st-August 1st

Unique Musical Company--Canadian Chautauqua Feature

PETRIE QUINTETTE AND CONSTANCE NEVILLE-JOHN'S

A sparkle of gold instruments and a flood of beautiful melody greet the audience as the curtain rises on the big musical entertainment to be presented at the Canadian Chautauqua here by the Petrie Quintette and Constance Neville-Johns. Brilliant symphonic arrangements of the music you love, interspersed with novel and amazing instrumental stunts and popular vocal numbers, are presented by the five versatile members of the Quintette.

Miss Constance Neville-Johns, who appears as soloist with the Quintette, is a charming coloratura soprano who comes from far-away Australia. She is a graduate of the Melbourne University and has appeared in concert, opera and as soloist with symphony orchestras throughout Australia, New Zealand, Italy and the United States.

Irma Chautauqua, July 29-30-31st-August 1st

"HURRICANE" COMING TO ELITE THEATRE, WAINWRIGHT

The first all-talking epic of the sea enacted by a superb cast headed by the greatest delineator of maritime roles in moviedom.

Thrilling drama of a daring wind-jammer skipper whose emotions are as turbulent as the mighty deep he sailed upon.

Mighty drama of the sea, filled with adventure, romance and thrills portrayed with a sweep that will grip you.

Live aboard a three masted schooner on the high seas! Experience the thrills of a tempest as the wind lashes the sails and the rain drives against the decks! Watch the crew mutiny and cheer as the daring skipper with a few faithful men puts down the rebels!

Stark realism! Thrilling adventures! Daring deeds on the high seas! Tragically and Romance! A picture that will bring you cheering to your feet!

Breath-taking drama of the mighty deep, portrayed with a sweep that entertains, grips and enthralis all in the same moment.

A classic turn from life's pages of emotion, lights and shadows that turn men into beasts, plunge them into the depths of misery and then raise them above the clouds into the sunshine of true happiness.

Greater than any stage play! Mighty in its thrill! Daring in its treatment! Never-to-be-forgotten drama!

Life's most thrilling moments presented against the colorful, adventurous background of the high seas.

WANTED

There are in our locality some distressed families who would be very grateful for left off clothes, shoes, etc. If there are any who can supply this need will they be kind enough to take them to Mrs. Cole, (town), and they will be delivered.

A. M. Trondell

5. Honey Orange Nut Muffins — Use regulation honey muffin batter. Add 1-2 cup honeyed orange rind (as prepared for orange nut bread), and 1-2 cup chopped walnuts. Pour in well buttered muffin tin and bake 30 minutes.

Honey Bran and Nut Muffins — 1-4 cup honey; 1 tspn melted shortening; 1-2 cup Graham or whole wheat flour; 1-2 tspn baking powder; 1-2 cup chopped nut meats; 3-4 cup soured milk; 1-2 tspn soda; 1-4 tspn salt; 1 egg; 1 cup all bran.

Mix melted shortening and honey. Add to beaten eggs. Mix all dry ingredients but bran and nuts. Sift twice, then add the bran and nuts. Alternately add sour milk and flour mixture. Bake in well greased muffin tins in hot oven. Nuts maybe omitted.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

"Broken Dishes," Great Comedy, at Canadian Chautauqua

SCENE FROM "BROKEN DISHES"

"He who cannot laugh at the play had better see his physician," says the New York Sun of "Broken Dishes," the popular comedy which will be presented at the coming Canadian Chautauqua here by the Martin Erwin Players of Canada. "Broken Dishes" is replete with sort of people we meet in our daily life. The play unfolds an appealing love story between Elaine, the baby of the family, and the village grocery boy, whom Ma treats with icy scorn. But Pa and Elaine conspire together with surprising and dramatic results. "Broken Dishes" is a gem of a play, genuinely moving and uproariously funny.

OLIVER
EQUIPMENT COMPANY

UNDER THE OLIVER FLAG

The All-Around Combines Model A and Model B

Oliver Nichols & Shepard Combines—Model A and Model B (with cuts of 10 and 12 feet)—are exactly suited to the needs of this community.

If you have small acreage and a small tractor, the Model A 10-foot Combine is the right one for the job. If you have more acreage and a medium size tractor, it's the Model B 12-foot. If you have a big crop with down or tangled straw, the Model B with 10-foot header is the machine. A medium size tractor will pull this combine, too.

Like all Oliver Nichols & Shepard Combines, the Model A and Model B keep running, keep threshing, keep saving.

Come in and see them.

WHAT IS THE BRITISH PREFERENCE?

What is the British Preference? Prior to 1897, Canada really had but one tariff—the general tariff. Special tariff rates were extended to some countries by treaty, but the Tariff Act contained but one schedule of rates. In 1897, a lower tariff was extended to Great Britain, and one year later, in 1898, a special British preferential tariff was enacted. This tariff was applied to British countries and in every case was 25 per cent lower than the general tariff. This is the British preferential tariff. The History of the Preference.

What is the history of the Preference? The preference was inaugurated, maintained and widened by the Laurier government from 1898 to 1911. The Conservatives who followed did not extend its provisions. In fact the rates of duty were increased. In recent years, under the administration of Mackenzie King, the preference has been consistently widened, culminating in the 1930 budget in which the rate of duty under the preference was reduced on 270 items, affecting \$200,000,000 of import trade previously drawn from non-British countries. This trade total does not include trade under some 50 items, such as natural gas, hay, live animals, eggs, etc., which formerly carried a duty under the preference but which were made free in the Dunning budget. Mr. Dunning stated in his budget speech that it was ridiculous to continue meaningless duties of this kind. Therefore he made these items free. He was well aware that no trade could develop under them. But as a result of the Dunning budget it is now true that out of 1,188 items in the Canadian tariff, 889 are free under the preference.

The Purpose of the British Preference.

What is the purpose of the British preference? It sprang out of a desire to increase trade within the Empire and to accord specific advantages to Canadian consumers. And today the necessity of retaining and extending the preference is more real and vital than ever before.

The Liberal party believes there is a natural basis for trade between the United Kingdom and Canada. Canada produces enormous quantities of grain and other food stuffs. Great Britain is unable to feed her millions of population and must import annually \$300,000,000 of grain and other food stuffs. Canada is the one great source within the Empire from which Great Britain may draw wheat.

But Great Britain is a manufacturing country and to keep her population employed must find markets for manufactured goods. Canada imports hundreds of millions of dollars worth of manufactured goods each year, and the purpose of the prefer-

ence, as enlarged by the Liberal party this year, is to exchange Canadian wheat and other food stuffs for British manufactures.

Vote X for Melvor and support the McKenzie King government in their helpful program for the whole of Canada.

Household Hints

SUGGESTIONS FOR THE USE OF HONEY IN THE HOME

The following recipes have all been tested. Please note that all measures are level, and that flour should be sifted once before measuring.

BAKING POWDER BISCUITS AND VARIATIONS

2 cups flour; 1 cup milk; 2 tablespoons butter; 2 tablespoons lard; 2 tspns honey; 4 tspns baking powder; 1 tspn salt.

Sift flour. Measure and add dry ingredients. Sift together four times and gently rub in shortening. Mix honey with half the milk and add. The balance of the milk to be added carefully. (May not require quite all of it.)

Toss on a floured board. Pat out with fingers, cut in desired shape and bake in a hot oven. Serve hot with comb honey.

Any of the following mixtures may be spread on the dough after it is rolled out and bake as above.

1. Honey Cheese Biscuits—1-2 cup Canadian cheese mashed, then creamed with 1-4 cup whip cream. 2 tablespoons honey and 1-4 cup rolled walnut meats.

2. Honey Raisin Biscuits—1-4 cup raisins, 1-4 cup butter and 1-4 cup honey.

3. Honey Orange Nut Biscuits—1-2 cup honey, 1-4 cup honeyed orange strips (as prepared for orange nut bread), 1-4 cup butter.

MUFFINS AND VARIATIONS

Regulation batter; 1 egg beaten very light; 2 tspns shortening; 2 tspns honey; 2 tspns baking powder; 1 tspn salt; 2 cups milk; 2 cups white flour.

Mix shortening and honey with beaten egg. Add milk and sifted dry ingredients alternately. Beat until mixture is smooth and creamy. Pour in well buttered muffin tins and bake in a hot oven thirty minutes. Serve it with honey. Makes 24 muffins.

Variations

1. Honey Cheese Muffins—1 tspn grated cheese to each muffin.

2. Honey Fig Muffins—Drop 1-2 fig cut in small pieces in batter of each muffin tin.

3. Honey Date Muffin—Drop a date cut in small pieces in batter of each muffin tin.

4. Honey Nut Muffins—Sprinkle batter with chopped walnuts or almonds before baking.

MUNICIPAL HAIL INSURANCE

Under the Municipal Hail Insurance Board Alberta is divided into seven classes, with a graduated system of percentage taxation.

Municipal District No. 424 is in Class F, which is the lowest class of all, and of course pays the lowest rate, the rate for 1929 was 5 per cent and there does not seem any likelihood of its being any higher for 1930. Class F has never been higher than 5 per cent.

Remember you do not pay the tax until Fall. If you have not got the necessary application forms, write me, phone me, or call on me, and we will fix it up right away, and your crop will be insured the moment the application form reaches Calgary.

BLAKE H. GREEN, Sec.-Treas.
M. D. of Kinsella. No. 424

Sedgewick,
Phone 1004 3t.

PUBLIC NOTICE

Public notice is hereby given that there has been introduced in the Council of the Municipal District of Kinsella No. 424 a by-law as follows: "All domestic animals are hereby prohibited from running at large at all times within that portion of the Municipal District of Kinsella No. 424 more particularly described as follows: Township 46, Ranges 10, 11 and 12, West of 4th.

Notwithstanding anything contained in any by-law of the Municipal District of Kinsella, domestic animals, the property of resident owners in the above described portion of the said Municipal District to the number of 25 per 160 acres of land owned within the above portion of the said M. D. by said resident owners or in proportion thereof shall be permitted to run at large or to graze within the above described portion of the said M. D. By-Law No. 15 of said M. D. in so far as it concerns the above described portions of the said M.D. is hereby repealed.

And further that unless within thirty days from the publication of this notice at least forty resident electors of the Municipality petition the Council to submit such by-law to the vote of the resident electors of the portion of the M. D. affected, the Council will proceed to pass the same.

Copies of this by-law may be seen at each of the following places: Kinsella, Jarrow, and two copies in conspicuous places in each division concerned.

BLAKE H. GREEN,
Secretary-Treasurer.

A Neat Job at Fair Prices

WORLD HAPPENINGS
BRIEFLY TOLD

Sir Esme Howard, British ambassador to the United States, who was granted a barony on the recent King's birthday, has taken the title of Baron Howard of Penrhyn.

Professor Ludwig Stein, internationally known philosopher and author, died at a nursing home at Salzburg, Austria, after an operation. He was 70 years old.

Canadian shipping companies had the bulk of the wheat business on the Great Lakes last month, according to the report of the Lake Shippers' Clearance Association.

The British Government is highly pleased by the shipbuilding industry agreed to by France and Italy. Premier J. Ramsay MacDonald told a questioner in the House of Commons.

The financial situation among Chicago's 13,000 public school teachers is once more acute. It is vacation time and pay cheques are three weeks overdue. To date, the back pay amounts to \$6,500,000.

Hundreds of thousands, celebrating 300 years of Massachusetts history, heard Sir Ronald Lindsay, British ambassador, bringing the greetings of the ancient mother state to the sovereign state of Massachusetts.

G. W. Jones, Canadian expert on taxation, has arrived at Canberra, Australia, at the invitation of the government of the commonwealth, to advise the administration regarding the operation of the sales tax introduced in the budget brought down recently.

British unemployment figures still are soaring upward a government report indicated. The Ministry of Labor announced that on July 7, the total out of work was 1,933,500, a gain of 42,925 over the previous week and 789,254 more than the same period last year.

Canada's Gold Production

Production In Canada Now Larger Than That Of U.S.

Canada has certainly been making rapid strides in gold production as compared with the United States, and last year the total production of gold out of Canadian territory was actually larger than taken out of United States. The United States, however, has also reports on production from gold mines in Alaska and in the Philippine Islands. According to mining engineers it is only a matter of a little time when the gold mines in Canada will be producing considerably in excess of what the United States is turning out because the tendency is for the United States to report a smaller production, whereas many of the principal Canadian properties are gradually reporting a still larger output. Twenty-five years ago it was not thought that Canada would overtake the United States in 100 years, and yet it has been able to achieve it in less than a quarter of a century.

Made Fortune From Linoleum

Ingenuity Of Englishman Started Him On Road To Wealth

Lord Ashton, whose amazing fortune was between thirty and forty millions, owed his wealth originally to his clever father's ingenuity, says the News of the World. The father was a working house painter who started a little shop in Lancaster, where he combined with his trade a picture-framing business. When cloth was introduced from America he improved on it by giving it a backing of powdered cork instead of cloth. So linoleum was invented and his fortune made. Lord Ashton himself worked in his father's factory from an early age and proved a wonderful man of business.

A toad gets his meals by snapping his long tongue out at any insect coming within reach. The end of the tongue is sticky, and few are the insects that can escape its grip.

"Why haven't you written out your lines, I must sit still!"
"But I couldn't write them when I had to sit still, sir," Moustique, Charleroi.

W. N. U. 1847

Will Increase Safety
In Steel Construction

Electrical Finger "Feels" Strain In Steel When Under Great Pressure

The purpose is to increase safety in construction by making under conditions of actual use tests heretofore confined to research laboratories. The device was described by J. P. Shanberger, of Pittsburgh, who said it was designed by J. G. Ritter, of the Westinghouse Electric & Manufacturing Company.

No longer than a human finger, and not much thicker, it bolts to the side of a rail and records the bending as a 100-ton locomotive thunders over. If placed on a curve it will show the side twist of the rail under the locomotive's thrust. It can be laid up on an automobile wheel to detect how nearly bumps come to causing overstrain.

The finger works somewhat like a slide rule, being of two parts, which telescope. This telescoping amounts only to the diameter of a tremor or a vibration, that is, something like one ten-thousandth of an inch. Even a slight motion slides a piece of iron to or from between two sensitized electrical instruments on the finger.

These instruments correspond to the sense of touch. They detect the motion of the bit of iron, and with it the distortion which causes the movement. They register this movement by slight electrical changes.

The "nerves" of the finger then come into play. They are plain wires, which carry the slight electrical disturbances to instruments that amplify them into movements an inch long, that can be calibrated in terms of wear and tear.

Bright Spots At Port Churchill

Northern Port Now Boasts Of Four Lady Residents

Up on the rocky shore of Hudson Bay, Churchill was once "No Woman's Land." For five years—including the winters—Mrs. A. Gibson, wife of the Church of England minister, made the new port her home. But this summer Churchill boasts its largest contingent of femininity—four women.

Three new lady residents came north on the Muskeg Limited late in May. They were: Mrs. S. Martin, wife of the United Church missionary; Mrs. Johnston, Margaret; and Mrs. Claude Douglas, wife of the divisional engineer of the Canadian National Railways. All three will reside at Churchill until autumn.

Victim of Hay Fever: "I should like a bottle in my bed tonight, Mary."

Mary: "Yes, sir, Irish or Scotch?"

A Girl Fire Warden

Young Californian-Guards Hundreds Of Square Miles Of Forest

Most people start at the bottom of the ladder and work up. A young Californian girl, however, says an article in the Young People's section of the London Daily Mail, has started as high up as it is possible to get, and is doing her exalted job very well. She is employed as a watcher for forest fires up in a veritable eagle'serie on the very highest point of Black Mountain, almost 8,000 feet above sea-level, in the San Jacinto range.

From her little log cabin, raised on stilts to give a clear view over the topmost trees, she looks out over hundreds of square miles of forest, signalling immediately when she sees a suspicious column of smoke by day and flickering flame by night.

An Alsatian dog named Mina is her only companion. Food comes up to her on the back of a mule. For water she has to climb some way down to a point where engineers of the Forestry Service dammed up a spring for her.

She admits that she does not like the thunderstorms, when lightning flickers around her watch-post, but declares that she seldom feels lonely, for she was born in a cottage in the mountains and has always been accustomed to their picturesque solitude.

Grain Stocks Decrease

Grain In Store At End Of June Shows Decrease Of Over Three Million Bushels

Returns received as to stocks of grain in store for the week ended June 27, 1930, show a decrease of 3,277,506 bushels, according to a report issued by the Dominion Bureau of Statistics. Stocks for the week were as follows: Wheat, 12,735,712; Oats, 9,927,231; Barley, 22,639,154; Flax, 512,382; and Rye, 8,241,089, a total of 172,155,698 bushels. Decreases are noted in wheat of 2,281,693; Oats, 256,580; Barley, 3,771; Flax, 38,061; and Rye, 387,471 bushels. For the same week last year the amount in store was 148,620,622 bushels.

Judging By Actions

A California paper reports: "After the ceremony, Smith declared, he visited his father-in-law, Daniel Roney's house, whereupon his mother-in-law hit him over the nose, drawing first blood, and his father-in-law fired at him twice with a shotgun. The police believe the Roneys objected to the match."

Candy making is one of the least hazardous of the specialized industries, both from accident frequency and severity.

British airplanes now in regular use carry 22 passengers.

FASHION

YOUTHFULLY SMART

A most attractive cotton shantung in "Buddha" yellow colouring that will tub just beautifully and always appear smart and new, will add chic to your summer wardrobe for mornings and porch.

Striking contrast is achieved through rolled shawl collar of white pique. The turn-back cuffs, pocket flaps and belt repeat the pique. The buttons are yellow with white rims. The saving by making this becoming dress is enormous.

It is a slim straight type with a panel effect at the front which contributes charming length to the figure. Inverted insets at either side of the front provide ample fullness to the hem and yet retain its straight slender lines.

The belt holds the garment closely to the figure, creating the new pinched-in waistline. This belt is passed underneath the front and through the bound opening at the right side.

Style No. 3489 can be had in sizes 16, 18 years, 36, 38, 40, 42, 44 and 46 inches bust. It takes but 2 1/2 yards of 40-inch material with 5/8 yard of 36-inch contrasting to make this one-piece dress for the woman of average figure.

It is equally smart-fashioned of men's cotton shirting fabric that is used so extensively this season for sports frocks. Cut the insets, belt, pockets, cuffs and collar on the bias for contrasting trimming effect.

Printed pique, linen, printed batiste, printed dimity, tub silks and pastel handkerchief lawn are lovely ideas for its development.

Pattern price 25 cents in stamps or coin (coin preferred)

Long Delayed Work

Has Been Commenced

Memorial To Latin Poet Was Thought Of Century Ago

At the gates of Mantua, in Italy, where Virgil was 2,000 years ago, a park is to be opened to the memory of the poet may haunt the Virgilian grove like "a green thought in a green shade," as an English poet once wrote.

In this wood are to be planted all the plants and flowers named in the works of the Latin poet. The brown reeds, the silver-leaved willows, will be there. The poplars will whisper in the breeze.

It is the best possible way of commemorating the poet, whose birth is now being celebrated in various ways throughout the world.

A bi-millenary (as we call 2,000 years), does not in itself mean much. What are 2,000 years in the life of an immortal? But what is most interesting about the completion of this wood at Mantua is that the idea of planting it was born 100 years ago, and has been put off by wars and rumours of wars ever since.

The Austrians and the Russians destroyed all the preparations made in 1787, and Napoleon did nothing to forward the idea.

After nearly 100 years the project was revived at the end of the 19th century, but nobody could spare money and the Great War destroyed the project. Now at last it has been revived and promises to come to fruition.

Empire Trade Extends

Bananas From British West Indies Reach Western Canada

Canadian agriculture is ever seeking new markets, and producers in other parts of the Empire are working toward an extension of the market for those of their products Canada needs. Information received by the Minister of Agriculture at Ottawa, shows that during the past year 208 carloads of bananas were shipped into Western Canada from the British West Indies. Word now comes that the first shipment of oranges and lemons from New South Wales reached Vancouver on July 15. Canada reciprocates with her exports of potatoes to the West Indies and with shipments of apples and onions to the Antipodes.

Why They Are Flying

Air travellers, during a recent period, were asked why they were flying. Out of 568 passengers, 253 were on airlines, 146 for the "joy ride," 103 because they preferred the air, 53 to visit friends, theatres, etc., 12 on a tour, and only 1 to take part in a sporting event.

The trap door spider covers its tunnel with a trap door, neatly beveled to fit the opening, and hinged at one side. The door is made of alternate layers of silk and soil.

An "intelligent" perfume filling apparatus has been devised, which refuses to drop any liquid into a bottle that happens to be imperfect.

Consume More Meat

Substantial Increase In the Quality Of Meat Consumed By the Average Canadian

Reports of the Live Stock Branch of the Dominion Department of Agriculture, show a substantial increase in the quality of meat consumed by the average Canadian, particularly beef, lamb and mutton. In 1928, the home market absorbed 648,600,000 lbs., while in 1929 it absorbed 676,800,000 lbs., an increase of 28,000,000 lbs. of beef, or roughly 2 lbs. more per capita. The Canadian market consumed 70,500,000 lbs. of lamb and mutton in 1929, compared with 62,200,000 in 1928, an increase of 8,300,000 lbs., or nearly 1 lb. per capita.

A Good Definition

Col. "Pat" Hurley, of Oklahoma is a lawyer, but his business interest is oil and real estate. His definition of oil operators is: "An oil operator is a man who doesn't know whether he is four feet from 1,500,000 or 1,000,000 feet from \$4."

A property in Durham, England, is held at the "rent" of three grains of pepper yearly.

Outdoes King Of Birds

Flock Of Eagle Raiders Were Annihilated By Airplane

After longing for unnumbered centuries to fly with the wings of an eagle, man has at last even outdone the king of birds. A flock of eagles raiding the sheep ranches near El Paso, Texas, were annihilated by an airplane with a passenger carrying a shot gun. In eight hours the plane had accounted for nine birds which a rancher had been trying to shoot from the ground for a year.

White Pine Best For Patterns

White pine is used for 90 per cent. of the patterns made in North America. The reasons for this, are, that white pine, more than any other wood, is easily worked, is of soft texture, is comparatively strong, is very durable and, most important of all, has very little shrinkage, which gives it the power to hold its shape indefinitely after being worked.

Sir Harry Lauder's last annual farewell tour of this country, scheduled for 1931, has this distinction: That he will be seen on it by people still living, who saw him on his first.

Make Your Windows Pay

CHAPTER XX—Continued.

"It does," Grandma agreed. "I wouldn't have believed Sarah could write two lines, to say nothing of six pages, without mentioning Jimmy. It comes over me, Grandma, to wonder if maybe he's got into some trouble."

"Trouble!" echoed Grandma in amazement. "What on earth are you driving at, Lizzie Baker?"

Miss Lizzie shook her head dubiously. "Jim's a country boy, Grandma Davis. He's been brought up secluded, you might say. And they ain't so very far from Hollywood, which is a wicked place, full of vampires and divorcees. If you read the papers as carefully as I do, Grandma, you'd know that Jim is liable to meet temptation."

"And liable to overcome it, if he does," snorted the old lady with indignation. "Don't you get to romancing about Jim, and telling your inventions to every one that comes along. Such stories grow faster than weeds on a burned wood lot. Here comes Ezra Bascom with the mail. You needn't stir, Lizzie; the doctor's getting it. Well," as the young man came inside, "were there any letters, or just that catalogue?"

The doctor greeted Miss Lizzie gallantly, and responded: "There's one for Charmin. I'll take it along and leave it at the school."

From behind the caller's broad back he winked at Grandma, and she asked: "Is it a thick one, Doctor?"

"It took two stamps to bring it," he replied. "Who's it from?" put in Miss Lizzie. "It seems like an awful extravagance for a person to use two stamps unless it's a matter of life and death. Who can be writing Charmin such a long letter, I'd like to ask?"

The doctor laughed and answered: "Then you must ask Charmin. There's a heavy penalty for tampering with the U.S.M. I'll have a look at the furnace, Grandma, and then be off. If any messengers come in just call up Doctor Howe. I'll stop there on my way back."

"I suppose I'd better go," remarked Miss Lizzie, rising. "I left some apples in the oven; and like as not they're burned to cinders. I wish the doctor and Charmin would get married, Grandma. It's such a comfort to have a man to tend the furnace. I don't know how he can help bein' sweet on her, either, livin' right here and seein' her every day. Do you think there's hope?"

"We're told that while there's life there's hope," Lizzie responded Grandma with a chuckle, "but I haven't an idea how Charmin would take to your suggestion."

Miss Lizzie sighed, wound the scarf about her neck three times, and fastened the moth-eaten fur above it. "Girls have changed," she said. "It's this younger generation stuff you read about in my day, Grandma, a girl would have been consid-

ered nothing short of a fool to turn down a fine young man like Doctor Carter—and Charmin's no fool. "You're right," admitted Grandma, "my girl's no fool," then added to herself: as she watched her caller waddle across the street, "and so far I know, she hasn't turned him down!"

CHAPTER XXI.

Charmin was buttoning the last small Wickhede into his coat when the schoolhouse door opened to admit John Carter. The girl looked up with a smile as she finished her task, and the doctor, pulling off his gloves, went to the stove to warm his hands. Charmin sped her pupil on his way, and said, as she closed the door: "I suppose my chariot awaits me. You're awfully good to me, John. I'm tired today, and thankful to escape the walk."

"So you really admit you're tired? I'm surprised—at—"

She laughed, and interrupted: "I'm sorry I snapped at you last night when you were good enough to inquire for my health. I'm all right, truly; but I've been worried about something. That's why I blew up the way I did. I have a beastly temper."

John Carter smiled. "Will this allay some of that worry?"

He produced Jim's letter and held it out, while Charmin, her eyes detecting the familiar penmanship, drew a relieved breath and the color flamed gloriously in her cheeks.

"When did it come?"

"The question was tremulous because she seemed to feel the doctor's eyes boring into her head, in an effort to read the thoughts therein. "Ezra left it as I was starting. I'm going to South Wickfield for a call. Perhaps you'd rather stay here till I get back and read your missive in peace—I see it's lengthy—or you can peruse it while I see my patient. As a physician, not as a selfish human being (though you might think so), I prescribe the ride."

Charmin hesitated. She longed to read Jim's letter in the solitude of the deserted schoolroom; but on the other hand she needed the fresh air, and since John had been kind enough to stop for her, it seemed discourteous to not to accompany him.

"Is it still frightfully cold?" she questioned, with a glance at her old sister. A fresh leak in the back hall plus an extra lot of coal, had made the new coat impossible at Christmas time. "I've got a wrap for you outside. I'll bring it in and warm it."

He was away, and Charmin tore open her letter, glancing first at the ending, her eyes alert for the doctor's stirring step. "You're always," Jim wrote, "what she read, and her heart lost some of its burden at the friendly words. Jim wasn't mad, anyway! The missive was stuffed into her pocket when John returned bearing a heavy ulster of his own."

"This will go over yours, and you'll be warm as toast. It's really a glorious winter day, Charmin, no wind and a clear sky. I left your grandmother in close confab with Lizzie Baker; so she's not lonely; and anyhow, she knew I was going to bring you home so she won't worry if you're a trifle late. There! You look like—"

He laughed as he buttoned the top button close to her chin, and Charmin asked: "Like poor, dear Miss Lizzie? Help me turn back these sleeves, John. Now I'm ready. Will you lock the door, please?"

He obeyed, and said as he tucked the robe carefully around her: "If you're tired, don't talk. Just rest your eyes on the landscape or close them if you prefer. I won't chatter."

Charmin smiled. "That sounds like an echo, Jim. Bennett said almost those same words one day last fall when he picked me up. I'd had some trouble with Deacon Purdie, and was all in. I think the deacon was trying to get even with us about those heads, John, and used one of Luella's boys for the scapegoat. I was scared to death for fear I'd lose my job."

"And you never spoke of it at home! Why not?"

"It would have worried Grandma because she was responsible for that shrewd bargain. Besides, it wasn't necessary." Just then it—somehow, what I'd do without Jim to fight my battles; but I suppose when we lose something we've always had and counted on, we just have to make the best of it, don't we?"

The doctor didn't answer this question; but after a moment he broke the silence by saying: "I didn't know of the bureau of special schools in the New York state department of education, finda."

The first electric transmission system in the United States was at Polson, California. The power lighted Sacramento.

Iceland's imports last year totaled nearly \$15,000,000.

PIMPLES

Actually See Them Vanish

Pimples faded so quickly by "Sootha-Sootha" that I can't remember today. I was up, Mary, go over again, get "Sootha-Sootha" today. I was up, Mary, go over again, get "Sootha-Sootha" today. I was up, Mary, go over again, get "Sootha-Sootha" today.

fell for me!" she finished, looking up with a smile in her blue eyes.

"They must be morose, all three of 'em," responded the M.D. with becoming gallantry.

"Far from it! They're making names for themselves, those boys. I think I was too much like a sister to them—they'd always had me hanging round. Then, too, George Junior was a bit odd; and Sid was too young; and Bill, Jim's chum, never had eyes for any one but Madge Merry. I wish you knew her, John. She's a wonder, and my best friend; but she hasn't been much use to me since she married Bill and went to live in Indianapolis. He's on a paper there, and doing splendidly."

"I seem to have learned—some Wickhede history," smiled John Carter. "Here's where I stop. I'm likely to be a good half hour. Are you warm enough?"

"Snug as a bug in a rug, as Grandma says. Don't have me on your mind a minute."

"Easier said than done, I fear," he answered, his gray eyes smiling; and as he turned away the girl drew out her letter.

She read: "When I got back from a three-week trip hanging a fruit ranch, and found your letter stuffed into the slit in our front door (it must have been left there before the post office got word to forward mail). I swore a deep, dark, terrible, bloody oath that would have turned my mother's hair quite white if she had heard it. And after I read what you had to say to me, only my dyed-in-the-wool New England caution saved me from sending you a telegram that would have broken the bank at Monte Carlo—not caution at the expense, please understand; but you know your Charmin. That a telegram in Wickfield is about as private a matter as the Grand Central Station is in New York. Hence my caution. I wish—"

Charmin closed her eyes a moment. They had misted unexpectedly, and she wanted to wink the mist away and go on reading. The letter seemed so much like Jim's that she told herself foolishly; and then laughed at the thought. How silly she'd been to worry about his silence! What an idiot to think he could be angry, or not care enough to write!

(To Be Continued.)

A Guesseous Luck Symbol

Parisians Are Superstitious About Hit of Hangman's Rope

A story comes from Paris of a wealthy South American woman who has lost a piece of hangman's rope. So long, it seems, as she had the rope, luck favored her. Her husband found gold and made a fortune out of a company. She herself won a prize in a Spanish lottery. Then she moved into a magnificent flat in the Champs Elysees. The rope was lost during the removal. And the lady is inconsolable. The superstition about the luck of hangman's ropes is an old one which is most current in France, where, curiously, people are not hanged. And frequent requests are received by influential Britons to obtain through the Home Office one corde de pendu, or at least a portion of one.

Persian Balm invests every woman with subtle charm. Delicately fragrant. Cooling and healing. Disappears all roughness or chafing. Makes skin delightfully soft-textured. Every woman should use this precious toilet requisite. Daintiness—beauty—refinement—Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm, hesitatingly choose Persian Balm.

Turner Valley Oil

Production from the Turner Valley oil wells in May amounted to 85,640 barrels as compared with 87,278 barrels in April. Of crude oil there were 4,619 barrels, of dissolved crude naphtha 22,314 barrels and of crude naphtha 45,847 delivered to the Imperial Refinery, the balance being taken by the Regal Co.

Luck Education

Seventy-five per cent. of the inmates of Sing Sing prison have no more education than that of a sixth grade pupil. N. J. Hestel, head teacher of the bureau of special schools in the New York state department of education, finds.

The first electric transmission system in the United States was at Polson, California. The power lighted Sacramento.

Iceland's imports last year totaled nearly \$15,000,000.

The Age Of Progress

Nearly All Important Inventions Introduced During The Past Hundred Years

If it was kept in mind just how young this modern age really is, men and women living in it might not be so cocky, taking for granted, as they do, conveniences as if they always existed. If all the main inventions of the past hundred years were suddenly destroyed and all their places lost, it would be surprising to find what chaos would exist.

All modern means of communication date within this modern century: telegraph in 1833; telephone in 1861; and much more recently the radio and television.

Nearly all modern construction is dependent on high explosives. Gun-cotton and nitroglycerine were introduced in 1867. Modern transportation facilities included in 1846. Dynamite dates from 1846. The automobile, invented in 1858, and in 1900 the alkaline storage battery, added to the feasibility of such transportation. The electric railway is only 50 years old. The airplane is well within modern memory.

Business would be badly crippled without the typewriter, 1870, and the electric lamp, 1879.

Modern pleasure depends largely on the phonograph, 1877; the movie, 1891, and the talkie, 1912. This list seems an effective antidote for cockiness.

For Protection Of Blind

Manitoba and Saskatchewan Appoint Expert To Look After Their Welfare

Col. H. Burritt, principal of the Pennsylvania Institute for the Blind, has been appointed by the governments of Manitoba and Saskatchewan to investigate and report on matters pertaining to the welfare of blind persons within the two provinces. This appointment was made following a meeting at Winnipeg between Premier J. T. M. Anderson, of Saskatchewan, and Acting Premier Robert A. Hoey, of Manitoba.

Appointment of the noted Pennsylvania educator follows recommendation by a special committee of the Manitoba legislature for setting up such a commissioner. The committee received a petition asking pensions for blind persons.

Pays To Be Polite

Charitable Institution In Australia Reported To Have Lost Donation Through Discourtesy

Because a secretary was discourteous, a charitable institution in Sydney, Australia, is reported to have lost \$50,000. Charles McNeess, western Australian millionaire and philanthropist, walked into the institution and asked to see the governor "on private business."

"If you can't state your business, you can't go in," replied a secretary tartly. "Well," said McNeess, "if that's the way you treat poor people I might as well tear this up."

He tore up a cheque for \$50,000 and gave the secretary the fragments.

Minard's Liniment gives quick relief.

Construction Contracts

The month of June showed an increase of 16.7 per cent. in the value of construction contracts awarded throughout Canada, says "McLean Building Reports." Awards were greatest in the business buildings classification, 37.1 per cent. of all construction came in this group.

Special crossword puzzles in which the letters are "pegged" into squares on cardboard forms are made in Paris for the use of the blind.

Modern girls not only dress fit to kill (according to a cynic), but they cook the same way.

SMP

Nothing can take the place of Enamelled Ware. Identify it by the SMP label of quality.

Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes: "My three youngest children were very sick with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Millburn Co., Ltd., Toronto, Ont.

Authorities Are Puzzled

Condemned Man In Estonia Chose Of Canning Fruits and Recovered

Serge Vasilanko's stomach has literally saved his neck.

Sentenced to death, Vasilanko was given his choice between the poison cup and the noose, according to Estonian law. He chose the hen-pick draught, in true Socratic fashion, drained it to its bitter dregs—and then refused to die. Languishing for some weeks in the hospital, his sturdy body battling the poison, Vasilanko finally rose from his bed a few days ago, fully alive.

The authorities were puzzled. There was no precedent for this. They had given the prescribed dose, but the man still lived. Courteously they offered Vasilanko the business end of a hangman's rope, but he sent regrets.

"I have complied with the law, to the letter," he said. "I see no reason why the ceremony should be repeated."

And until someone finds a reason to the contrary, Vasilanko lives a free man, with a stomach to be proud of.

Warship Saves Woman's Life

Exciting Race Of Australian Warship "Anzac" In Teeth Of A Tornado

The exciting race of the Australian warship "Anzac" in the teeth of a tornado to save the life of a light-house keeper's wife has thrilled Australia.

When word was received that Florence Broderick, pretty 21-year-old wife of the lightkeeper of Gabo Island, was dying, the "Anzac" was ordered to sea with a surgeon. After being battered by the storm and swept from end to end by mountainous seas, the warship howled to the barren island.

Bluejackets rowed the surgeon through the surf to the rocky shore and all that night he remained at the woman's bedside. In the morning he was able to report that the crisis had passed and the patient was out of danger.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Alberta Development Board

Southern Section Has A Fine Record Of Achievement

"The Alberta Development Board, southern section, enters the eighth year of its operation with a fine record of achievement," says the Calgary Herald, "which is no less remarkable and valuable because it cannot always be reckoned in exact dollars and cents benefit to the people of the section, enters which it serves." The Board's work covers a wide variety of activities, all designed to make known the attractions and industrial and other opportunities of the area covered.

Remove all callouses and enlargements from your stock with Douglas' Egyptian Liniment, a wonderful remedy.

Argentina Wheat

Maintaining Lead Over United States In Shipments To Britain

Argentina is maintaining a steady lead over the United States in wheat shipments to Great Britain, England's import figures for that cereal recently made public revealed.

Shipments from Argentina reached their peak last year when the South American republic's total was \$4,776,496 bushels against America's 41,563,124.

This year's figures to June 30 were, United States 12,204,102, Argentina 19,187,620, while in 1928 the figures were: Argentina 45,546,360, and United States 44,170,068.

Argentina Buys Canadian Apples

A demand for quality Canadian apples in Argentina, which should give an opportunity to Canadian fruit shippers, has been reported to the Department of Trade and Commerce by O. M. Armstrong, Acting Canadian Trade Commissioner at Buenos Aires. Canadian apples were favorably received last year when they were first sold in Argentina.

Little Helps For This Week

"Let every man prove his own work, and then shall he have rejoicing in himself alone, and not in another."—Galatians vi. 4.

Nor serve we only when we gird our hearts for special ministry; That creature best has ministered. Which is what it was meant to be.

"I have desired," says King Alfred the Great, "to live worthily while I have lived, and after my life to leave the men that should be after me a remembrance in good works." How lofty the simple words are! Duty, not romantic achievement, is the aim of his life; not to do some "great thing," but the right things, the right things being simple, what God gave him to do. He seems to have felt in his inmost being that each man was sent into the world, not to live like some one else, but to do his own work and bear his own burden, precisely the one work which God has given him, and which can never be given to or done by another.

—Elizabeth Charles.

Terribly Weak

Strength Regained Through the Use of Dr. Williams' Pink Pills

"After the birth of my baby I was terribly weak," says Mrs. Joe. "I could not sleep or do my housework. I was despondent and was afraid I would be constant invalid. I began taking Dr. Williams' Pink Pills, and before long my health was restored, and I could do my housework without fatigue. Since then I have used these pills on two other occasions with splendid results."

Dr. Williams' Pink Pills enrich and purify the blood. That is why better sleep, steady nerves, improved appetite and increased vigor follow their use—all these can be yours if you start treatment today. The Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Stamps Cleverly Forged

Were Used By British Secret Service During War

A little known phase of the Secret Service in the war was revealed in an auction room in London, England recently, when some German stamps were offered. They were forged by the British Government for the use of spies dropped behind the enemy's lines. Careful search by philatelists has revealed only minor flaws in the designs, and the paper, water-mark, and perforations are excellent. Two values were made, the red 10-pennig, and the grey 15-pennig, and a block of nine of the latter was for sale.

Brazil is stopping all expenditure on public works.

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach, and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkins, Box 14, Thornhill, Ontario.

Rheumatic Pains

Minard's affords a sure relief, when rubbed on the affected parts. A quick, effective pain killer.

MINARD'S

"KING OF PAIN"

LINIMENT

Federal Election Monday, July 28th

To The Electors of the Battle River Riding:
LADIES AND GENTLEMEN:

At a large convention held at Wainwright on June 25th, Mr. J. W. G. Morrison of Vermilion, was unanimously nominated as the Conservative candidate for the election to be held on Monday, July 28th. The Association feels that the convention made a strong selection. Indications point to a change of government and it is therefore felt that the best interests of the people of this constituency will be served by electing Mr. Morrison as their representative. He is well and favorably known to the people of the riding. The association appeals to the electors for their support and confidence on his behalf.

As the electors know, the Hon. R. B. Bennett is the leader of the Conservative Party. Mr. Bennett is a western man and in close touch with western needs and conditions, better than any other man in public life today. The Conservative Party is the only party presenting in this campaign a clear and definite policy to the people of Canada on the many problems with which we are faced today. The policy pledges: Protection for Canadians in the development of our national resources, our agricultural and industrial life and our consumers from exploitation; To foster and develop the agricultural, livestock and dairy industries now so sadly neglected; To develop inter-provincial trade and foreign markets for our agricultural and other products; To inaugurate a national fuel policy; To improve our whole system of transportation including the Hudson Bay route, the port facilities at the Great Lakes, Atlantic and Pacific coasts, and build the St. Lawrence Waterways; To establish a national highways system; To foster a great Empire trade based on mutual advantage; To establish a national system of old age pensions thus relieving the Provincial and municipalities of being asked to contribute.

These pledges will create a CANADA FIRST in all things. Mr. Bennett pledges to call a special session of parliament to deal with the question of unemployment. Over 200,000 out of work is not a good thing for the country. The development of our national resources means that our raw products will be manufactured in Canada, thus giving employment to our own people. At present we ship out our raw products to be manufactured outside of Canada, and then we buy them back as finished material. We paid over \$900,000,000 last year to the United States alone for goods, most of which could be manufactured in Canada by Canadian workmen. The national fuel policy will increase employment in our mines and on our railways and incidentally create better markets for our farm products. The building of a national highway across Canada, beside giving steady employment, means that thousands of tourists from the east and south will visit these western provinces, which will mean the expenditure of millions of dollars with resultant benefit to the farmers and business interests generally. By a national old age pension system the provinces and municipalities will be relieved of the burden of contributing to this worthy undertaking.

These policies are in your best interests, and policies that for your own good and the good of the community you should support. The Association therefore ask you to
SUPPORT BENNETT AND VOTE MORRISON
ON JULY 28th

This Letter is issued under the authority of the Battle River Federal Conservative Association

TRAIN TELEPHONE NOW A FACT

The Canadian National Railways, which first made possible the reception of radio concerts on board a moving train, an invention which many first class railroads have since copied, have achieved another mechanical triumph by perfecting the first two-way system of telephone communication in the world with moving trains. The system has been put into public service by the company on "The International Limited," which covers the 334 miles separating Montreal and Toronto in 360 minutes, the fastest train in the world traversing a like distance.

The photograph shows Sir Henry Thornton, Chairman and President of the Canadian National Railways, inaugurating the telephone service from "The International Limited" while the train is travelling at 60 miles per hour. At the train switchboard is J. C. Burkholder, Chief Engineer of the Canadian National Telegraphs, who developed and perfected the train telephone system.

Born to Mr. and Mrs. Arthur Muckleston on July 10th, in the Royal Alexandra hospital in Edmonton, a daughter, Marjory Annetta.

Mr. and Mrs. G. A. Tripp returned Sunday after a very pleasant moor trip to Banff and other summer resorts.

When in Banff, stop at the Homestead Hotel and meet your Alberta friends. Ask to see the last edition of the Irma Times and get the latest news from home.

Crops are doing fine, some wheat is over five feet high and a lot will be lodged before it is cut. This is a lot better than not having any to harvest, the Irma district stands to harvest the best crop it has ever had.

Mr. Spencer, the U.F.A. candidate and Mr. Morrison the Conservative candidate, are both winding up their campaigns in this constituency this week, waiting for the result of the election on July 28th. Mr. Morrison was at Irma last week and made a good address at a meeting that was fairly well attended.

Wednesday night the Irma district was visited with one of the worst electric storms that has occurred for some time. Commencing shortly after nine o'clock the electric current was affected and the juice was off till Thursday afternoon. Kellers theatre had a good crowd attending who had to sit in the dark most of the evening. The current came on by spells so that the operator was able to give the show eventually. Around midnight a very heavy rain fell. One hog was killed by lightning in the Irma stock yard, with this exception and the damage done to the Calgary Power Line the district escaped any serious damage.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone; or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

The Wastebasket

"Cheer up," says a careful observer, "you have two chances. One of getting the germ and one of not getting it. And if you do get the germ, you have two chances. One of getting the disease and one of not. And, further, if you get the disease, you have two chances, namely, one of dying and one of not. But, if you die, well, you still have two chances.

"Can you keep a secret?" whispered one lady to another at a recent gossiping social in a neighboring town. "Yes," whispered the other in reply, "I can keep one as well as you can."

"I thought the automobile was a modern invention," said a careful observer in a neighboring town. "Well, isn't it?" asked a bystander. "If you think so just go to a sale of used cars, like I have," was the sad reply.

"Were you in complete control of your car?" asked the justice of peace at Ryley during an investigation of an auto accident. "No," was the reply, "my wife was with me."

"You have a hole in your stocking," said a Vegreville fellow to his best girl at the dance at Innisfree Beach last week. "I'm not wearing stockings; that's my vaccination," she replied.

"There are plenty of good roads," says a careful observer, "What we need now is a lot of good drivers."

A man may remain cool when he's toasted, says a careful observer, but he will get hot if you roast him.

Heard at the poker party: "My wife and I always agree about some things." "Yeah, and how?" "Yes, when anything is wrong I take it for granted that it's my fault, and she always thinks so, too."

"If you won't marry me I'll blow my brains out," said a local fellow to his Irma girl. "Well, if you do, don't say anything about it and nobody will know the difference," she replied.

"A girl of fifteen should tell her mother everything," said a club leader at the women's convention last week to one of the girls here. "I know it," the girl replied, "but mother is so innocent, really I haven't the heart."

"What were the names of the twelve apostles?" asked a Sunday school teacher of a new youngster in the class here last Sunday. The boy shifted from one foot to the other and said: "I don't know, ma'am, but I can tell all of the pitchers in the league teams."

Something to worry about—a frog lays 84,000 eggs annually.

Heard in the barber shop: Barber: "Will you have anything on your face when I've finished sir?" Victim: "Well, it doesn't seem likely."

Heard at the ladies social: "Did you enjoy the art exhibit?" "No, I couldn't find a mirror in the whole exhibit."

"Is this a healthy place to settle in?" asked a tourist at a Motel at Cold Lake. "Yes," replied the landlord, "but it's a most unhealthy place if you don't settle."

Beauty Hint: Girls who wish to look sweet should try dressing their hair with a honeycomb.

Heard on the street: "So your father is ill. I hope it's nothing contagious." "So do I. The doctor says he is suffering from overwork."

POOL WILL MAKE FIRST PAYMENT OF 70 CENTS

Winnipeg, July 15th—Initial payments for the 1930-31 grain crop today was set by the Canadian Wheat Pool. Far down from the values set a year ago for the west's crop. The first payments on all grain delivered to the Pool, July 16th and thereafter, are as follows:

Wheat: 70 cents a bushel on No. 1 Northern, Fort William.

Barley: 25 cents per bushel on No. 3 C.W.

Oats: 30 cents per bushel on No. 2 C.W.

Flax: \$1.25 per bushel on No. 1 N.W.

July 19th is "cut off" date for the 1929-30 pool, so that all grain delivered after that date is credited to the 1930-31 pool. The initial prices were announced today by the central board of the Central Selling Agency of the Canadian Wheat Pool.

Irma Chautauque, July 29-30-31, and August 1st.

Kill The WEEDS

The Noxious Weedkiller "Kaempfe 33"

Acts SURELY as a RELIABLE weedkiller to EVERY noxious weed, especially the Canada Thistle and Sow Thistle.

In consequence of its concentration it is the CHEAPEST and HANDEST of all weedkillers.

PRESERVES THE FERTILITY OF THE SOIL

No machinery is required. Just spread it dry or sprinkle it dissolved in water. 1 lb. cleans at least 150 square feet.

Price: 24c a lb. in lots of 50 and 200 lbs. Trial Pail of 11 lbs. net, \$4.00 C.O.D., including packing and postage.

"KAEMPFE 33" is the only efficacious weedkiller of the world, which does not destroy the fertility of the soil.

"KAEMPFE 33" does not merely weaken the weedplant, it KILLS PLANT AND ROOT ENTIRELY.

Every storekeeper can sell you "KAEMPFE 33". If not, write to

KAEMPFE CHEMICALS LTD.

840 TEGLER BUILDING,

EDMONTON, ALTA.
